Subject: Meeting request

Hello Minister Ballard,

For over 12 years, a proponent has been pursuing the construction of a hydro-electric generating station at the Bala falls.

For as long, the community has been frustrated that serious public safety and environmental concerns are not being addressed.

Minister Ballard, Troy Cockriell and I request a 30-minute meeting directly with you so we can present both the unaddressed problems and how your Ministry could stop this proposed project without cost or penalty.

As the proponent has recently started some pre-construction work, could we meet within the next week.
